- Receive a personalized color aura photo and psychic interpretation of your colors. Aura colors can reflect a person's past, present, and future events, character traits and talents, soul path and purpose. Sometimes spirits can even be seen.
- In this psychic development workshop, you will learn a combination of meditations, and a range of psychic development exercises designed to progressively enhance these abilities and enable you to strengthen your psychic vision, awaken your senses, and think and act more positively.
- This evening will also include a guided THIRD EYE meditation attunement to enhance your "Sixth Sense" and a special "Healing" to rebalance your chakra system.

Listen to Vincent J. Barra's radio show, Psychic Synapse, at www.AchieveRadio.com every Tuesday and Thursday 11am Pacific Time (2pm Eastern Time).
